THE BENTON TRIBUNE.

VOLUME 7.

BENTON, KENTUCKY, WEDNESDAY, JULY 31, 1895.

NUMBER 40.

NEWS ITEMS OF INTEREST FOR THE PEOPLE OF MARSHALL COUNTY.

Never squeeze the baby until it cries.

Mr. W. F. Story of Scale was in the city last Thursday.

Fulton, Ky., is justly proud of the Normal and Business College.

A sound liver and good rains, destroy both republicans and populists.

Never trim your wife's toenails on Sunday, but try and perform this painful duty on a rainy day.

It is better to go to bed at 9 o'clock and get up at five, than go to bed at 11 and get up at seven.

R. W. Starks and his son, editor of the Hardin Star, of Hardin were in the city Wednesday.

The rains seem to be falling this year, exactly where they are the most needed.

The new station is to be called "Overby" in honor of its founder F. H. Overby.

There is some talk of a free silver paper starting in Lexington, Ky., and Nashville, Tenn.

See the display "ad" of the Fulton Normal and Business College in this issue of the TRIBUNE.

Too much love as often disgusts, as too little, therefore be careful that too much love is not lavished upon your husbands.

H. D. Irwin & Sons, of Hardin, are waiting for some other first, so they can come under on all prices. So they told Ed. 40 1m.

These good crops and good rains, are wonderful destroyers of a certain class of politicians, known in some sections as populists.

Joe Faulkner the new depot agent is doing the work in a satisfactory manner in the absence of Mr. Will Luckman who is away on a visit.

Pugilist Corbett will be compelled to leave off training for several weeks, in consequence of injuries received last week in a fall from his bicycle.

It seems from the way that wives are leaving their husbands in other parts of the state, that, if he wants to keep her, he had better tie her with a log chain and get a bull dog to guard her.

Uncle Jim Vaughn says he is not now so much opposed to primary elections but for one time, he can't support the populist ticket, but will return to his first love, the republican party, and stand by it, as in other days.

Mrs. Paralee Ellison, a sister of W. H. and E. P. Nance, died at her home near Elva last Tuesday and on the following day, was buried at Oak Level. Her funeral was preached by the Rev. Jones the Methodist minister at that place.

There are four railroad sections between Paducah and Glade, and they are presided over by the excellent bosses, Dick Lucas, Sam Craghorn, R. H. Brewer and J. B. Moore. The P. T. & A., is to be congratulated on having the services of four such good men.

Mr. Martin Reeder, one of the county's old pioneers died at his home near Elva last Monday week with the infirmities of old age. He was about 86 years old and, was an honorable upright gentleman. He was buried at the Wallace grave yard last Tuesday. He was the father of Mr. Henry Reeder, who resides at Elva.

We call the attention of our readers this week to the advertisement of the Southern Normal University, of Huntington, Tenn. This institute is sending out trained teachers and business men to meet all the southern states. The young men and women of this section will do well to investigate the claims of this institution.

Rout the Whiskey And Save the People.

Laws are made for our protection. If there were no wicked people none who would stray from the paths of right, we would need no law. But such is not the case and what we need and want now, is a law prohibiting the sale of whiskey in our town. Christian men, voters of Benton, do you not see how God's church is defiled by the demon, liquor, let loose in our midst? Will not great Jehovah's dread thunderbolt crush the nation that harbors such a monster allowing him to roam at will, till there is scarce a home that has not yielded some loved one as his prey? Let me beg you to drive this monster out of our midst, you have God-given weapons, vote and pray, work for the cause night and day, never ceasing till the victory is ours. You have voted a school tax, employed a competent man as president of the school and expect a good school to be built up. Now we need parents who are not willing to send their children to school in a town where there are saloons, and we are quite sure our school will be more successful when whiskey is voted out. Some one is ready to say, how can we get along without the revenue derived from the sale of liquor? God pity such people who are willing to risk their souls for a little revenue. Admitting for arguments sake that whiskey caused the improvement of Benton, financially. Do you not know that revenue thus secured is taking the bread from the mouths of the wives and children of the consumers therefore it renders the county poorer. It is more frequently the poorer class who purchase the liquor, perhaps they are not so in the beginning but we see them so at last. Oh! you say if they want to throw themselves away let them go. No, we cannot do so, even if it were only the drunkard, if he had no family to suffer, we cannot let him go, we are to a great extent "our brother's keeper" and as Christians we cannot afford to see a brother sink. We must go to the rescue. We all have an influence and it will be exerted for right or wrong. Brother on which side will your influence be given? God will certainly hold you accountable for the way in which you vote. But it is not to the men alone we appeal for aid. Christian mothers, are you not going to take a part in this great struggle? Have you not a son or a husband to save from the demon, drink? You cannot expect to go to the poll to vote but you can pray. You must not stand by idle when so much depends. Lend a helping hand in this mighty warfare. Let no one be ashamed to come out and fight valiantly for the right for with the approval of almighty God on what we do why should we hesitate. Some one has said that the sale of whiskey here is under good control, no violations of the law, etc. That is all very nice we are glad it is no worse than it is, but what we want is no whiskey. Again they say they don't see how the morals of the district could be made better by changing the government of the town and district. Does anyone think for a moment that the morals of our town are so good they could not be improved? If so we are ready for the millennium. What we want to do is to get the vile stuff out of our midst and we will not be held accountable if people go elsewhere to get it. Now let's work for the cause, carry it to the church and prayer-meetings and finally come out and vote as we pray.

markable for being the only girl now living in the Barnett family, which will serve to endear it more closely to the relatives. Mr. and Mrs. J. T. Barnett have several grand children, but little Sarepta, is the only girl. In order that the entire family may be happy, we wish a long and healthy life to the little girl baby.

From a Mother.

I leave that a vote is soon to be taken on the question, whiskey or no whiskey, in the Benton voting precinct, and seeing an article in the Tribune advocating the sale of it, I feel that I ought to say a few words in favor of sobriety and in answer to it. I have lived a long time and have seen many strange things in my life, but I have never seen before, an article in print, advocating the damnation and destruction of an entire town and community by the sale of whiskey. If the sentiments contained in that article, God pity him, for such a man, can stand up and see the wholesale destruction of the poor men, women and children of the district, and never turn his face from the sickening scene. Yes, he can gladly witness the destruction of the school houses, the church houses and the happiness of every home in the community, and in their places, he would be pleased to see saloons, the places where our boys are led from the paths of moral rectitude to a drunkard's grave; gambling houses and dens of vice of every kind, and the establishment of every character of wickedness that would tend to destroy the happiness of our homes and demoralize society. I am the mother of boys and girls; my husband was once a good man, but saloons have made him a demon and he loves the company of the vulgar, profane and the drunkards better than that of his poor heartbroken wife and sad children. I have seen him and two of my poor boys come home drunk, and fall upon the floor and breathe out threatening, abuse and vulgarity in the presence of me and his own daughters, until all would drown their troubles in crying themselves to sleep. Next morning he would try to apologize and fix it all up, and before bed time would return in the same condition. Whenever there are saloons in Benton, I always have this trouble, but when they are not there we are all sober and happy. It is a mother's prayer that every man, who is entitled to a vote, will cast it for the mothers and children of the county, if not for themselves. God pity the big stout robust man that will walk up and vote for whiskey, when his poor dependent and helpless wife and children at home beg him and deplore him, to help save them, by voting in the interest of his own dear family. I know what trouble is, and I know what caused it in my own home, and I know how to ask for help, and by the grace of God I intend to do so as long as I am able. Voters, for heaven sake, vote against the sale of whiskey in the district, and you will help a brokenhearted

MOTHER.

The corn and tobacco crops are both as good as they have been for years, in fact some old people claim, that they have not been so good in 20 years. Old men claim that away back in the early settlement of this county, corn was good every year as it is this, but for the past years a real good corn crop has not been made. So far, this is a bountiful crop year and hardly any kind of crop will be short in county. The people are all rejoicing at the prospects of a bountiful supply of everything. This is the kind of a year for one and all to rejoice and be happy.

FOR THE SALE OF WHISKEY

I have written two articles against local option and the illegitimate sale of whiskey in the Benton district and not one has ever been answered by the opposition. For the first time this side is permitted to be heard in a county paper, and when the nature of the local option is fully expressed then the people turn away from it and will not support it. The law is a bad one, and does not do for a community, what its advocates claim for it, it has the proper name local option, it is a local law, and is optional with the people whether or not whiskey shall be sold in an honorable and legitimate way or be given to the mid-night prowler or the sly and unscrupulous moonshiner. How can a town be in a worse condition than in the clutches of a gang of moonshiners. If this district votes local option, no sooner than the license houses are gone than an army of secret liquor peddlers will infest the town and district in a way a thousand times worse than it is at present. Look at Murray and see the conditions of that town, one of Benton's colored boys now on the streets paying the penalty of moonshining whiskey in that local prohibition town. And such is the case in all prohibition towns, and not one can deny the charge. I heard a reliable man say in Benton the other day that there is more whiskey sent from here to Murray than was drunk here by our home people. How is it at Mayfield, the last grand jury that met there found 110 indictments against men for selling whiskey and beer in violation of the so-called option law. This is more indictments by 50, that was ever found against saloon men since this was a town. Option won't do, and does not satisfy the people as well as regular saloons and drug stores. It is a deception law, and a dangerous one, and whenever it is attempted to be enforced dissatisfaction, distrust and gross violations of the law is the result. It don't stop the sale or the use of it. If it did there might be some excuse for voting it, but it does not and never will. I would feel that I was on the wrong side of this question if it were not that at least one-half of the church members are bitterly against local option and will vote against it.

If no one were against the law but drunkards, gamblers and blackguards, I would feel that I was in bad company, but when I look about me and find that so many of the most influential church members, and county officers and other prominent men are against the local option, then I feel that I am in good company and don't hesitate to say that if the law was a good one, these men would heartily support it. But I cannot support a law that is as defective as this, and one too, that so many good men who have been here for years, and have seen it tried for 14 years, say that it is such a failure they are ready to vote against it. They claim that it is not good policy and not good morals, to take it out of the hands of men who are under bond to sell it according to law and who pay for this privilege \$1037.50 a year and put it into the hands of men who are not responsible, and that are not required to pay one cent for selling it in any way, in any quantity and to any body. Local prohibition is a back number and is fast going out of date. Where the people are acquainted with it and understand the vast amount of harm, and the little good it does there they vote against it. The Rev. Keen Ryan, a big Methodist preacher of Owensboro, Ky., at the close of a protracted meeting at Russellville, Ky., a prohibition town, he said that he had found 33 places where whiskey and beer

was sold, and that these places were ten times as demoralizing as if they were under the control of the regular state laws. The law, that the voters of this district are asked to make is a real prohibition law and as there are but few prohibitionists here it cannot receive but few votes. The Bible is not opposed to a moderate use of wine and other drinks, neither does it favor prohibition or local option laws. Vote against all hypocritical ways, of binding a free people down, to an infamous and impractical code, of dangerous and immoral laws, of which the option law is certainly one of the worst.

Mrs. Charlotte M. Long.

On the 18th of July 1895, at 6:15 p. m. at the residence of her son, John W. Long, near Scale, Mrs. Charlotte Maria Long, died of consumption. She was 75 years old, and as the sad procession wound slowly along from the residence, to the grave it was the exclamation that a good woman was gone, and many a one was in her death, reminded of her good deeds, which were many, but they were never mentioned by her, and if you heard of them, it was from one who had received her kindnesses. She was much attached to her relatives and they to her, and as far as she could be, she was a benefactress to them. She was a member of the M. E. church south, but she was no sectarian, she loved all christians, and attended all churches. She had many times comforted the weary and had bestowed many blessings upon her friends by doing all she could by words and deeds to help and encourage them. God has called her home to a place of rest but not until her shadow was far in the west, and life's sun was in the splendor of a bright setting, to rise upon a fairer shore in the jeweled sphere of God's presence, though loving heart's mourn for her they should remember that there is no death for the pure in heart. They are only transplanted to adorn immortal flowers. We are left to mourn our loss, but our loss is her eternal gain.

God will take care of you as long as you live. Granting you blessings no other can give. He will take care of you, when time is past Safe to his kingdom, he will bring you at last.

Content with beholding his face My all to his pleasure resigned, No changes of season, or place Can make any change in my mind.

NEW STATION.

Overby Will be The Name of a New Station On The P. T. & A.

A New Town to be Started Between Ramsey and Elva.

Mr. F. H. Overby, of Mayfield, was the city last night, having come up to consummate a deal with the Paducah, Tennessee and Alabama railroad for a plat of land about 12 miles from the city, between Ramsey and Elva, two small stations on the road between here and Memphis.

A new station is to be established on the newly purchased grounds and it will be named Overby, in honor of its former owner. The Station of Ramsey will be entirely abolished, but owing to certain conditions that exist one at Elva will have to be maintained.

Work will begin at once on the depot, etc., and a number of section houses will be built, the station to be the headquarters for one section. It promises to become one of the most thriving little stations on the road.—Paducah Standard July 25.

This is a new move and will create new business on the lower end of the road midway between here and Paducah.

Marshal Heath Shoots at Joe Chandler.

A protracted meeting has been in progress at Pleasant Grove church five miles west of here for the past few days, at which there has been some very bad behavior, such as shooting pistols, cutting bridges and saddles and much other devilment at night.

The citizens out there have become tired of it, and sent here for Town Marshal Heath to go out there and arrest the guilty parties and bring them to justice. He attended two or three times, but everything was quiet, but as he was coming in home last Friday morning he met Joe Chandler in a wagon with his father who had been in Paducah. Mr. Waller was in the buggy with the officer, and just after they passed the wagon the officer was informed that that was the man he was hunting for, and just as Mr. Heath jumped out of the buggy Chandler hopped out of the wagon and ran up the lane this side J. A. Vaughn's and Heath after him, yelling to him to stop, but the more Heath

cried "stop" the faster Chandler ran. Chandler gained all the time until the officer drew his pistol and fired two shots and gave up the chase.

Chandler is wanted on three warrants, and if he don't leave the country, the first thing he knows he will be languishing behind the bars.

The church going people in and about Harvey are determined to stop this kind of disturbance at church, and if some of the boys are not careful they will be before the courts.

The democrats are poor at executing bad republican laws, and in order that they may shine as the true friend of the masses, they should be given another four years of power. The present administration will yet go down in history as the safest and best in history. There is no mistake in saying that the democrats are the true friends of the poor.

WEDNESDAY JULY 31.

First copy of the "Free Re-
public," a new paper just started
in Louisville is on our table. It is
a campaign paper for the Populists
and is well edited by W. S. M.
Payton. It is for equal rights to
all and exclusive privilege to
none.

The banks are all in fine condi-
tion and with plenty of money to
loan. According to the reports of
June 29, 1895, there are 171 state
banks and 15 private banks—these
186 banks owed their depositors the
enormous sum of \$25,048,483.
32. This is a great sum of money
to be deposited in 186 banks.

The newspaper men and the
citizens generally are already be-
ginning to take steps for the enter-
tainment of the coming Press As-
sociation of Hopkinsville. We
knew the people of that city would
do just what they are beginning to
do. All who go there will be
treated in a royal manner.

If the democratic party is beaten
at the November election Joe
Blackburn will be the cause of it,
and if Mr. Blackburn is beaten for
United States Senator next winter
the democratic party will be the
cause of his defeat, and not the
populist party. So you have it.

The populist met in Louisville
with only a small number of dele-
gates in order to declare against
sound money and in favor of the
16 to 1 policy of free silver. They
were there two or three days and
in order to express one or two
sentiments in a platform they used
nearly 1,000 words. This could
all have been done a shorter and
sweeter way. All that was neces-
sary was to say this: We
are for a platform and un-
derstand it.

Editor Joe Parker of the popu-
lists will be in Louisville until
after November, as manager of the
populist campaign committee. Joe
has a good time at the expense of
his party and who can blame him
for there is no one else in his
party that can do better than he.

We are informed that W. C.
Leech, of McCracken, is no longer
a candidate for legislative honors.
Mr. Leech is a nice young man and
would have made a good member
of that body, but he saw it best
to leave the race, at least until
the committee could decide what
it wanted.

Stop Your Foolishness.

If some of our democratic
papers would look after a more
perfect organization of the party
in their respective localities and
not do so much "fussing" at the
democratic press of Louisville
they would come nearer doing
their political duty. There are
three democratic dailies, in that
city and they are at all times right
in the harness, ready and willing
to do all they can for the success
of the party. There are quite a
number of "one horse" country
papers, constantly making war on
the Louisville press about this
and that, and the most of it is
done for local bums, and thinking
thereby to get the ear of these
metropolitan journals, but
they are very much mistaken, for
they pay but little, if any attention,
to them. There is one paper in
that city that needs the attention
of these country papers that are
throwing away so much valuable
space on the Courier Journal,
Post and Times, and that is the
Commercial, a red hot republican
paper. It is against it, that the
democratic press should direct
their thunderbolts of irony and
abuse and not against the very
papers that are doing so much
good for the cause of democracy
in the state. The Tribune is a
poor weak, backward paper, but
it is not the paper that wants to
kill the goose that lays the golden
egg.

McCracken's Legislative Race.
The democratic county com-
mittee of McCracken county will
keep "monkeying" with the legis-
lative race until it will disgust
enough democrats to give the
county to some other party. If
there is one thing that in all our
political machinery that must work
straight along without any bobbles
it is a county committee. These
committees are not to be the judges
as to who shall or shall not make
the race for the legislature, as it
seems the committee in McCracken
is now trying to do. Let the com-
mittee call a convention or primary
election and abide its results, and
not dilly-dally with the best inter-
ests of the party, as it is now do-
ing until the party is so weakened
that it will take all of its forces to
succeed at the November election.
We feel an interest in the success
of a good democrat to the legisla-
ture from our sister county, and
hope that all this foolishness will
not materially lessen the chances
for such a result.

Stabbed To Death.

Geo. Eggner Instantly
Killed by Simon Oden—
Both Colored.

ODEN NOW IN JAIL.

At a negro dance last Saturday
night in Birmingham, Ky., Geo.
Eggner got into a fight with his
brother-in-law, Simon Oden, and
was stabbed to death. It is said
bad feelings had existed between
them for some time. Eggner
married Oden's sister and after-
wards left her. The sister went to
live with her brother, and it is
believed that her influence caused
Oden to commit the murder. From
some cause Eggner and Oden met
out on the commons near the
church and here the fight pursued.
Oden drew his knife and stabbed
Eggner three times, one of the
stabs entering his heart. He got
up after he fell and ran some dis-
tance, when he fell dead with his
face to the ground. The remains
of Eggner lay in the hot sun all
day Sunday at the spot where he
was killed. An inquest was held
Sunday over his dead body by
Judge Porter Smith and the
verdict was given in accordance
with the above.

Oden was arrested, also his
sister and Bob Waterfield, who
are charged with being accomplices
and having witnessed the killing.
They were guarded in Birmingham
Sunday and Sunday night, and
were brought here Monday and
placed in jail. They will have
their examining trial next Friday.

Whiskey or no Whiskey? Which?

My friend the "Voter" tells us
in the last week's issue that out
of 400 men in the voting precinct of
Benton only 13 can be found who
are entirely free from the use of
whiskey. In his first article he
was speaking of hypocrites. Now
just listen for a moment and I will
tell you where the hypocrites are.
I am informed that in the three
churches in this town there are
about 146 members, and about 30
who live in the precinct who are
members elsewhere. Now, here
are your hypocrites, men who claim
to be members of the body of
Christ, and still persist in violating
a known law, guarded by a nega-
tive precept. Any man who loves
his God to the extent that he has
forsaken all and has given up all
(that is the yielding to carnality)
will not go to the polls on the 2nd
day of September, next and yield
himself soul and body at the
shrine of the god, appetite, and
say that he opposes local option.
Such a decision means this. I
sacrifice wife, children, home,
happiness—all to the god appetite.
Selfishness, pure and unadulterated,
an ingredient of hell itself, and
it is the meanest form of sin too.
Just ask, please, any of our edu-
cators what whiskey is doing to
retard the progress of education.
Can you not see what it has done
for our town in the way of build-
ing up an educational center here?
What inducements do we offer to
young men who are seeking edu-
cational advantages? You seek
patronage for your school and you
will soon find why you can't build
up a school here. Men do not
want to send their boys where
there are such influences thrown
around them as will tear down,
rather than build up. They want
a better atmosphere to breathe in.
They seek for a place where
public sentiment opposes the sale
of whiskey. Any man with half
sense and one good eye can see
what "Voter" is wanting. He
wants to barter away the future
happiness of this community for
a money consideration. I know
the good people of this communi-
ty will not listen to that. Where
does that \$1037.50 come from that
goes to make the streets of this
town so beautiful? Yes, every one
admits it is revenue that has made
Benton the present city of Mar-
shall county in the way of increas-
ing its number of streets and
boulevards. Does it not come
from the earnings of many poor
women and children in this county
who are now suffering for the
necessities of life, and from those
who could, with their money, help
these poor who are struggling to
keep the wolf from the door. The
man who drinks is not the only
one that suffers, but every man.
"No man liveth to himself, and no
man dieth to himself." We are a

great body of moving humanity,
connected by a feeling of sym-
pathy. You touch the electric
button on one side and you put
the whole body in motion, if one
part of the world suffers from a
famine the other side must supply.
Summing it all up, is not the cost
greater, per capita, to keep up
saloons than it is to keep up streets
for the christian world to learn
that of one blood God has made
all nations, and that all men are
brethren, that the race is an organic
unit and to injure one part is to
injure all. We are fond of re-
ferring to universal brotherhood,
and yet how empty are such
phrases, when with bland indiffer-
ence we treat this matter of local
option. Dear christian friends,
will you not open your eyes and
see how that the good name and
character of your boys depend
upon the example and precept that
the father sets for them? The
future destiny of your boys may,
and does depend largely upon the
question at issue to be settled the
second day of September 1895.

ONE INTERESTED.

SPRINGFIELD, MO.

Of all the christian names under
the sun, I esteem the name of
Cleveland's last heir as the most
beautiful. That particular name
has a fascination for me the like
of which only no one can know
but myself and Tom Blewett.
Evidently Grover had some com-
munication from Marshall county,
suggesting the name chosen. Of
course the county clerk will wink
the other eye when he reads this.

It was the sad duty of this
county (Greene) to lay beneath
the sod on yesterday its disting-
uished sheriff. He had only been
sick three days when the inevitable
came. The funeral procession was
one of the longest ever seen in
the county reaching over a mile in
length. The deceased had been an
engineer since the war. Prior
to his election and during the war
was engaged as such pulling
government trains during the con-
flict. He was buried with Knight
of Pythian honors, they turning
out in full uniform 500 strong and
marched to the cemetery headed
by a military band of music. The
law of Missouri provides that this
office when a vacancy occurs shall
be filled by a special election after
20 days notice shall have been
given by the county court. Until
such election is held the county
coroner succeeds to the office
of sheriff. It is now proposed
that the name of the wife or the
son, who is only 19 and not eligible
on account of age be named and
endorsed at the election. If either
of these can hold office as eligible
they or rather one of them will
fill the unexpired term without
any opposition from other political
parties at the special election.
but if another, then the one named
above, be nominated by the re-
publican primary, then the dem-
ocrats will contest for the place.
Public sentiment generally is in
favor of the wife if she can qualify.
You have all heard of Miss Anna
Baxter the efficient and accom-
plished county clerk of Cortage,
Jasper county, Mo., who is now
serving her second term as coun-
ty clerk. If she can qualify for
that office, why not endorse the
wife of our departed sheriff to fill
his unexpired term. OZARK.

VALDASTA TEXAS.

I would like to have a few words
to say in your paper. I have
many friends back in old Kentucky
that read the Tribune, that would
not doubt like to hear from me.
Corn crops are good but have
been a little damaged by heavy
rains. Cotton is damaged about
one-fifth by the rains. The farmers
have done but little work in seven
weeks, but now the rain is over
and all is well.

George W. Dunn and family left
here on the 20th of July for old
"Kaintuck," where he is willing to
spend the remainder of his life.
He is doing sowing his wild oats,
and upon his return he will settle
down contented to remain away
from Texas.

Mr. Avery Petty left here with
Mr. Dunn and will switch off at
Nashville for Knoxville, Tenn.,
where he will try the rocks and
hills of Middle Tenn.

Valdasta has been greatly re-
lieved in the past few days by the
closing of a holiness band meeting
which has been going on here for
over seven weeks. The result of
their work was 90 sanctified and
30 justified, and by the way how
is that for Texas.

That Tired Feeling

Hood's Sarsaparilla Makes the
Weak Strong.

"I cheerfully announce the facts of a course
of treatment with Hood's Sarsaparilla. I was
troubled with a dull
headache and that tired
feeling. I am employed
by the St. Louis & San
Francisco Railway and
was out in all kinds of
weather. I began to take
Hood's Sarsaparilla, and
after taking six bottles I
felt perfectly well and
had a good appetite.
Hood's Sarsaparilla is a

I gladly recommend it."

Pleasant Visitors.

Our sanctum was visited last
Thursday by Miss Dora Draffen,
Miss Mamie Johnston, Miss Isora
Little, Miss Ethel Brannock and
Miss Hattie Blewett. The editor,
at first, hardly knew how to act in
the presence of such beautiful
guests, but he finally recovered
and gave them a right royal wel-
come. They made themselves at
home for the time being, and took
a good look at our little devil, at
the big press, at Jack and at the
bald-headed editor. It was the
first time some of them were ever
in the Tribune office and so they
all concluded to make a wish such
as they hoped would sooner or
later come to pass. One said she
devoutly wished she would get
married before she ever visited
the office again. Another said if
she knew that she would ever
marry a young man as ugly as "our
devil" she did not care to live
much longer in this world. An-
other said she would like to marry
a good man, but she did not want
one as large as the circuit clerk.
Another said she did not care any-
thing about the size of the man
she would marry, but she did not
want one as old and ugly as our
county clerk. The other said if
she could only get married to a
man as handsome as the editor she
would be supremely happy. At
this the editor smiled, and they all
departed saying "when they all
visited the office again they will
take pleasure in making the editor
acquainted with their husbands.
Such visitors can always find a
hearty welcome in the Tribune
office.

The people of the Benton voting
precinct are respectfully invited
to come out next Monday and
hear some local option talk.

Is spent annually for Tobacco.
Thousands of men die every year
from that dreadful disease, Cancer
of the Stomach, brought on by the
use of Tobacco.
The use of tobacco is injurious to
the nervous system, promotes heart
troubles, affects the eyesight, injures
the voice, and makes your presence
obnoxious to those clean and pure
from such a filthy habit.
DO YOU USE TOBACCO?
If you do, we know you would like
to quit the habit, and we want to
assist you, and will, if you say the
word.
HOW CAN WE HELP YOU? Why, by
inducing you to purchase a box of
Colli's Tobacco Antidote, which is a
preparation compounded strictly of
herbs and roots, which is a tonic to
the system; also cures the tobacco
habit and knocks cigarettes silly.
HOW DO WE KNOW IT WILL CURE YOU?
First, by its thousands of cures, and
second, by the increased demand for it from the most
reputable wholesale houses; Third,
we know what it is composed of, and
that the preparation will clean the
system of nicotine, and will cancel
all errors of the past.
YOUR DRUGGIST has Colli for sale.
If he has not ask him to get it for
you. If he tries to palm off some-
thing just as good, insist on having
Colli. If he will not order it for you
send us (\$1.00) one dollar, and re-
ceive a box of Colli postpaid.
In most cases one box affects a
cure, but we guarantee 3 boxes to
cure any one.

HARVEY.

It seems like it is almost impossible for some of our great newspapers to get anything near correct, of course, we, in common with the rest of the people living in Uncle Sam's domain, have been reading trying to find out the correct name of President Cleveland's new baby but it seems to be an impossible task. Of course its name of our business what its name is, but we would like to know, but we must confess, that when we read four names, all different, in as many different newspapers, we got sortie confused and doubted whether it had any name or not. Of course when Cleveland reads the Tribune for we are sure he does and sees this he will sit down and write me a letter telling me its name etc.

"Incurable."

We know that it sounds quackish to talk about Electropoise curing incurable diseases, but bear in mind the fact that it is the old treatment which has pronounced the case incurable. We do not make the claim, that we can cure all so-called incurable diseases, but we do maintain with all earnestness that a pronounced incurable by your family physician is a splendid field for the operation of the Electropoise. It may be just the treatment necessary, and is quite likely to be so. If it fails this is no argument against the "Poise," but in such a case, the fact of the physician's statement is proven to be true. But many of the patient who has been given up by his physician, has again received relief through treatment of the Electropoise.

W. H. Nelson who is in the drug business at Kingville, Mo., has so much confidence in Chamberlain's Colic, Cholera and Diarrhoea Remedy that he warrants every bottle and offers to refund the money to any customer who is not satisfied after using it. Mr. Nelson takes no risk in doing this because the remedy is a certain cure for the diseases for which it is intended and he knows it. It for sale by R. H. Starks.

The advocates of free and unlimited coinage of silver persist in calling the act of 1863 a crime, and picture the days prior to that date in a way that would lead the people to believe that the land flowed with milk and honey; that every man was rich in the good things of this earth, that poverty was unknown and that the "striking down of silver" has brought upon the country all the ills and torments of the damned. They point to the history of the democratic party and its traditions and tenets and attempt to prove that it has always been a free silver party, and attempt to bolster up their bluster in ways that must bring a smile to those who can read understandingly and are not interested in the crusade of the western silver mine owners to appropriate their product.—Standard.

Last June, Dick Crawford brought his 12 months old child, suffering from infantile diarrhoea, to me. It had been weaned at four months old and being sickly everything ran through it like water through a sieve. I gave it the usual treatment in such cases but without benefit. The child kept growing thinner until it weighed but little more than when born, or perhaps ten pounds. I then started the father to giving Chamberlain's Colic, Cholera and Diarrhoea Remedy. Before one bottle of the 25 cent size had been used, a marked improvement was seen and its continued use cured the child. Its weakness and puny constitution disappeared and its father and myself believe the child's life was saved by this Remedy. J. T. MARLOW, M. D., Tamaroa, Ill. For sale by R. H. Starks.

The time is now at hand for protracted meetings, where a certain class of boys are ready to do all kinds of devilment at church, and now is also a good time for the law-abiding people to put a stop to their conduct. Every one of these violators of the law should be arrested and severely punished. If they are not it will soon be impossible for a meeting to be carried on without disturbance. It can be done and ought to be done and all good citizens should leave nothing undone to bring the guilty parties to a just punishment. The law is quite severe on this character of crime and if a few of these young bucks were fined, and otherwise punished, a stop would soon be made and people could worship without being disturbed or molested.

HONEY DEW.

Fair Dealing, July 22.—I see some one inquiring as to the origin of honey dew. It is the excrement of an insect or leaf louse called aphids. They feed on the underside of the leaves and their excrement falls on the top of the leaves below. Whenever you find the leaves themselves exuding honey it will be sticking in little drops to the underside of the leaves where the side fibers join the main stem. There is only one well attested case of this kind, which was discovered by W. G. Saltford, of Poughkeepsie, N. Y., in Sept., 1870. The trees were the catalpa. D. L. NELSON.

We are glad to see that Maximum has come out for a revision of our common school laws. But we are not together on the laws which we think should be enacted. Now Maximum, when we are convinced that we are wrong in our principles we will own up. But, why hold five examinations, when one would do as well, and would give every teacher in the county an equal chance to secure a certificate of equal merit with any applicant, by this mode there would be no easy examinations. And in case of sickness give the superintendent and board of examiners the power to extend any certificate one year and no more, upon the certification by the attending physician of the applicants inability to attend the regular examination. We favor practical questions, and the abolishment of the institute. We are opposed to the present method of employing teachers.

Reasons.—The system has degenerated into a family affair. That is teachers depend upon their relations, when such are trustees to place them in the position of teacher, and in some cases the election of trustees falls upon the plane of electing a man in favor of a certain teacher or opposed to a certain one.

It is usually difficult for three men to concentrate upon any given one and their difficulty in so doing produces discussions in the district.

By my plan it would do away with the promise system and every teacher would know that he would secure a school according to his certificate.

Maximum, also wishes to know what produces honey dew and why it falls in June!

Honey dew, a sweet, saccharine substance, found on the leaves of trees and other plants in small drops, like dew. Two substances have been called by this name; one exuded from the plants, and the other secreted by certain insects especially the aphids. It is not always formed in June. M.
